Instruction in mathematics, language work for english language learners and other subjects that meet the school’s academic requirements will fill student’s schedules. Instructors include current Cono staff as well as other outside coaches and clinicians.

Field trips will take advantage of recreational and educational resources in the region.

Students will live in Cono’s dorm facilities under the care of experienced dorm parents during the duration of the program.

All residence facilities will be closed between the end of the Summer Program and travel day for the Fall 2010 Semester.

Real grace.
